Experience

Web Developer / Web3 Developer, Copariot Labs – Wuhan, China,

July 2024 – Present

- Developed Web3 decentralized applications (DApps) using Next.js, TypeScript
- Built a multi-chain swap interface using the OKX DEX API, enabling users to perform smooth token swaps across supported EVM networks.
- Cross chain explorer for tracking and monitoring transactions for WEUSD token (EVM, MOVEMENT)
- Implemented buy/sell and trading features for the company's native token
- Developed and maintained additional company websites

Web Developer, Rebase – Wuhan, China,

November 2023 – April 2024

- Integrated Web3 technologies for blockchain-related features
- Worked with modern front-end technologies like React, Next.js, and TypeScript to deliver scalable and performant solutions.
- Integrated RESTful APIs and third-party libraries to enhance application functionality and data retrieval

Frontend Web Developer, Wanmei Network – Kunming, China

March 2023 – June 2024

- Have worked with a developer team

- Conducted code reviews, identified areas for improvement, and implemented best practices to ensure high-quality codebase.
- Collaborated with cross-functional teams to design and develop user-friendly web applications, ensuring optimal user experience and performance.

Web Developer, Intern, Pioneer Alpha Limited – Dhaka, Bangladesh

August 2021 – January 2022

- Assisted in building and maintaining responsive websites with a focus on user experience and performance.
- Implemented cross-browser compatibility and ensured website optimization for mobile devices.
- Gained hands-on experience in modern frontend development

Education

Southwest Forestry University, BS in Computer Science

Sept 2019 – April 2023

Kunming, Yunnan, China
